

LAB # 07

FALL 2021

CSE102L Computer Programming Lab

Submitted by: **MUHAMMAD UMAR JAN**

Registration No. : **1508**

Class Section: **B**

“On my honor, as student of University of Engineering and Technology, I have neither given nor received unauthorized assistance on this academic work.”

Submitted to:

Engr. Abdullah Hamid

Department of Computer Systems Engineering
University of Engineering and Technology Peshawar

Lab 7:

Introduction to HTML (Basic Concept, Code and Syntax)

Lab Tasks:

Create an HTML Web Page with the name "My Essay". The page must have everything aligned to the center, it must have your Name as the title and registration number as subheading (smaller heading) underneath the heading. Then write a short essay (at least 100 words) about any topic you like, you should apply bold, italic and underline in the paragraph and insert at least two pictures about the topic. At the end of the page there should be an email link as well.

The page must have the following elements in use:

Title

Heading

Paragraph (should have different font and font size +3)

Image (multiple images related to your topic)

Email/link

Font

Background image/color

Text color

Bold/italic and underline

NOTE: This Lab task should be uploaded as an .HTML FILE. The Picture(s) used should also be uploaded so that I could check it properly.

Muhammad *Umar* Jan

NATURE
""

Nature is an important and integral part of "**mankind**". It is one of the greatest blessings for human life, however, nowadays humans fail to recognize it as one. Nature has been an inspiration for numerous poets, writers, artists and more of yesteryears. This remarkable creation inspired them to write poems and stories in the glory of it. They truly valued nature which reflects in their works even today.

Essentially, nature is everything we are surrounded by like the water we drink, the air we breathe, the sun we soak in, the birds we hear chirping, the moon we gaze at and more. Above all, it is rich and vibrant and consists of both living and non-living things. Therefore, people of the modern age should also learn something from people of yesteryear and start valuing nature before it gets too late.
